

V-Station® HD

Producer4 • Producer4S

Multi-Channel Video Recorder/Switcher/Streamer Packages

Typical System. Computer Not Included.

- V-Station HD Project Management Software
- Multi-Channel H.264 Video Recording USB Interface

For Windows-based Laptops, Desktops, & Surface Pro Tablets

**The Affordable Way To Record & Stream
Multi-Cam Lectures/Presentations/Events**

V-Station® HD

Producer4 • Producer4S

Easy & Cost-Effective Multi-Camera Video Production

V-Station HD Producer4 series systems are the perfect way to do multi-cam/multi-angle video shoots on a limited budget. The multi-channel video recording USB interface connects to your Windows-based laptop, desktop, or Surface Pro tablet's USB 3.0 port. Running the V-Station HD project management application software on your PC, Producer4 and Producer4S become very affordable ways to bring multi-camera production values to video projects. It's simple to setup, efficient to use, and fast to transfer your video files to your NLE. Fewer staff are needed to operate V-Station HD Producer4 series systems than recording with individual camcorders/DVRs.

Monitor All 4 Channels Live

View all video angles together on your laptop PC or tablet and control the system with keyboard/mouse commands. If your PC has a touch-screen, use it to select and control your shots.

V-Station HD Producer4 Series Record Monitor Panel

4-Channel Synchronized Video Recording

V-Station HD Producer4 series will make your post-production editing task much easier and faster because all the camera angles are automatically synchronized as you record—and when you transfer the video clips to your NLE system.

AutoProducer® Video Switcher

Using your PC's HDMI video output, switch live between cameras and send the program output to an HDMI monitor—all while simultaneously creating the EDL for post-production.

Exclusive 5th Track “Line-Cut” Recording & Live Stream

The Producer4S model provides you with an extra (5th) recording track to automatically record the live switched video output as a “line-cut” of the event being recorded along with the 4 video channel recordings. It incorporates all the technology needed to automatically stream the 5th track “line-cut” directly to YouTube Live, Facebook Live, or as a private RTSP/RTMP stream—without the need for an external streaming device.

Integrated Project Management

With its built-in SQL database media asset management system, V-Station HD Producer4 series clips are recorded and organized by project, reel, scene, shot and take numbers. This makes it simple to locate, backup or transfer projects to your NLE.

The Workflow Advantage—Seamless XML NLE Transfer

V-Station HD projects are transferrable to your NLE system with clips automatically organized into bins and sequences (generated from the EDL)—and are already synchronized. No more tedious hours trying to locate the desired shot. Premiere Pro, Final Cut Pro, and Vegas Pro NLE systems are supported.

Digital & Analog Video Input Flexibility

The V-Station HD Producer4 series multi-channel video recording interface has 3 x HD/SD-SDI inputs, plus 1 input that can be switched to accept either an additional SDI or HDMI camera signal, or a VGA/DVI (from a 2nd PC), component, S-Video, or composite input.

Flexible Video Recording Resolutions & Containers

Producer4 series systems provide a variety of H.264 recording options. Multiple recording resolutions (480i/576i, 720i/720p, 1080i/1080p), frame rates (24/25/30fps), and container type MP4 are all supported.

Flexible Audio Inputs

Selectable 4-channel (stereo) embedded digital audio from cameras or external 4-channel stereo analog audio synchronized to video.

Full-Featured Media Player

Even while recording, you can mark and play back previous shots using the built-in media player. Pull up the playlist by project and review footage. Log footage for each frame—making it easy to find.

V-Station HD Producer4 Series Media Player Panel

CAPABILITIES	
Simultaneous synchronized recording	Yes (up to 4 camera feeds)
Multi-track video recording technology	Yes (1080p up to 30 fps)
Audio assignment of embedded video	Yes (4 stereo channels)
Monitor live all sources on same screen	Yes
Live switching to HDMI monitor/streaming device	Yes (PC must have HDMI output)
Line-cuts with edit decision list creation	Yes (FVS505); EDL only for FVS503
Upload line-cut videos to YouTube, FTP Sites	Yes (FVS505 only; FVS503 is upgradable to FVS505)
Stream line-cut videos to YouTube Live & Facebook Live	Yes (FVS505 only; FVS503 is upgradable to FVS505)
Recording time 4 channels/1080p30	Up to 80 hours with 1 TB drive *
Multiple video input configurations	Yes (4 SDI or 3 SDI +1 HDMI or DVI-D, VGA, Composite, or S-Video)
NOTES	
Includes: V-Station HD project management software, multi-channel video recording USB interface, USB cable, 100-240VAC AC-DC adapter, HDMI to DVI-D adapter, VGA-DVI-D adapter, 4 x 3.5 mm to RCA female audio adapters. (Users must provide their own cameras.) Full specifications available at FutureVideo.tv.	
Producer4 minimum PC requirements: Intel based CPU i5 (dual core 2.30 Ghz or faster), Windows 7 Professional x64/Windows 10 Home/Pro, SSD 256GB or larger, Intel on-board HD graphics 520 or 4600 and above, 6 GB RAM (8 GB RAM recommended), USB 3.0 port for video interface.	
Producer4S minimum PC requirements: CPU Intel i5 3.4 Ghz (quad core, 4th Gen or higher), Intel HD Graphics 620 or higher or 4600 or higher, at least 8 GB RAM (recommend 12-16 GB), Windows 7 Professional x64/Windows 10 Home/Pro, SSD 256GB or larger, Intel on-board HD graphics 520 or 4600 and above, 6 GB RAM (8 GB RAM recommended), USB 3.0 port for video interface. When using optional V-Station® HD Studio PostTools™ software (for multiple synchronized video playback, editing, logging), an i7 quad core-based PC is recommended.	
* Optional 1TB data storage drive (D:) is recommended for holding large video files (USB 3.0 external drive or internal secondary drive).	
ORDERING INFORMATION	
V-Station HD Producer4 Recorder/Switcher Package	Item No. FVS503
V-Station HD Producer4S Recorder/Switcher/Streamer Package	Item No. FVS505
